**Subject:** NHDES request sampling for PFCs/PFASs at Contaminated Sites  
11.22.16 PFC notification to stakeholders.pdf

Please find attached a letter from the New Hampshire Department of Environmental Services (NHDES) requesting that perfluorinated chemicals (PFCs), also referred to as per- and polyfluoroalkyl substances (PFASs), be included in future groundwater sampling at certain contaminated sites. As you may be aware NHDES has been working at several locations in the state where PFCs/PFASs have been detected in drinking water supplies. These chemicals have been widely used in many industrial and commercial products. The intent of the letter is to give stakeholders the opportunity to plan to incorporate these chemicals into future sampling.

Kimberly Durgin, Clerk IV

Department of Environmental Services

Waste Management Division

29 Hazen Drive, PO Box 95

Concord, NH 03302-0095
